ACTIVE LİTYUM EP GRES

LITHIUM EP GREASE · NLGI 1 / 2 / 3

EP 2

PRODUCT DESCRIPTION

A lithium soap grease prepared from qualified base oil and special additives, widely used in industry. It is used in wheel bearings, central lubrication systems, ball and plain bearings of automobiles, commercial and off-road vehicles, agricultural and construction machinery not operating under very heavy load and high temperature. It can also be used safely in electric motor bearings.

APPLICATIONS AND KEY FEATURES

- Works under impact loads thanks to superior extreme pressure (EP) properties
- Extends bearing life by reducing fatigue and wear
- Reduces maintenance costs and failures
- Wheel bearings and central lubrication systems

TYPICAL PROPERTIES

Property	Unit	Test Method	Typical Value
Soap type	—	—	**Lithium**
NLGI consistency grade	—	ASTM D217	**1 / 2 / 3**
Worked penetration (25°C)	0,1 mm	ASTM D217	**310-340 / 265-295 / 220-250**
Dropping point	°C	ASTM D566	**Min. 185**
Colour	—	Visual	**Yellow / brown**

The values given are typical values and do not constitute a specification; minor variations may occur between production batches.

PACKAGING

0.9 kg · 3.6 kg · 15 kg · 185 kg

STORAGE AND HANDLING RECOMMENDATIONS

- Store packages with lids tightly closed, in covered areas.
- Do not expose to direct sunlight or heat sources.
- Ambient temperature should not exceed 60°C. Do not stack more than two pallets on top of each other.
- Do not discharge used oil into sewers, soil or water; deliver it to an authorised waste oil collection point.
- Keep out of reach of children.

HEALTH, SAFETY AND ENVIRONMENT

For information on safe use, transport, storage and disposal, refer to the product Safety Data Sheet (SDS / MSDS).
